& RENEWALS

Established in 1989 William Kennedy Plumbers have grown from a small one man operation to a company with around 20 employees which is highly regarded as one of the best around for providing both first class service and workmanship throughout Southwest Scotland.

The companies focus on training ensures that we are at the forefront of modern installation techniques giving our valued clients the very best possible service. Our expertise extends to both the domestic and commercial fields.

PLUMBING REPAIRS & UPGRADES

We offer a wide range of plumbing repairs from repairing taps / ballcock's, repairing burst pipes, clearing choked drains / waste pipes to installation of washing machines, dishwashers, outside taps, water filters, showers, WC's basins, sinks, garden irrigation systems - the list is endless - if it needs water or a waste pipe then we can help install it or repair it!

CENTRAL HEATING DESIGN & INSTALLATION

We design and install gas, oil and solid fuel heating systems from complete new systems to boiler replacements / upgrades all meeting the latest efficiency regulations saving you money on your bills and helping save the environment. So if your looking for a new boiler, radiators or hot water systems then give us a call for some friendly and professional advice.

BOILER SERVICING & REPAIRS

Our service department are a highly qualified team who can service, commission and repair gas and oil boilers, fires, cookers, warm air heaters and water heaters. We are both CORGI registered for gas work and OFTEC registered for oil work. We cover both domestic and commercial appliances and offer yearly maintenance contracts for domestic installations.

BATHROOM DESIGN & INSTALLATION

We design, supply and install the complete bathroom / shower room including all plumbing, tiling, joinery & electrical - the complete job start to finish - we can also carry out the finishing touches of accessories and decoration. Our flexible approach means that we can fit only or even supply only for self install. We also do individual installations / replacements of showers, WC's, basins & baths etc.

ROOFING REPAIRS & RENEWALS

We carry out general repair to work to slated, tiled, profiled sheet & flat roofs, guttering as well as lead work - flat roofs, valley gutters and flashings. We also carry out new roof works, re-roofs, extensions and new build.
